

CERM
2018

Catskill Science Collaborative

Mission:

- To promote collaborative environmental research and monitoring in the Catskill region
- To encourage research that addresses the concerns and data needs of resource managers, and
- To share the results of research with scientists, resource managers, and the residents of the Catskills.

Specific tasks for first year

1. Begin planning for 2020 CERM Conference
2. Initiate Catskill Research Fellowship Program
3. Sponsor activities to inform and engage Catskill residents
4. Enhance accessibility of Catskill data: Collaboration with FEMC
 - Catskill data portal: <https://www.uvm.edu/femc/catskill>
